A. S. ROF'S TRUE TO THE LAST.

TESTIMONY OF THE CRITICS.

"Our old fithen A. S. ROE, a favorate with the public in this country and in England, has given as another beautiful and instructive novel. Irom the press of Derby & Jackson, entitled "True to the Last, or Ainte on a Wide, Wide Sea."

[N. Y. Observer, Sept. 16, 1828.

"Its lessons of fidelity and man iness have something of a moral and religious tone, and its value in this respect is above that merely of a well bild tale."

"Mr. Roe evidently knows how to tone in the heart-strings; indeed he sweeps them with a master hand. At one time we find it impossible to restrain the gusting tear, at another every viable nerve is in full exercise." (N. Y. Christian Intelligencer.

"A. S. ROS, author of "A Long Look Ahead," and "The Star and the Cloud," is a fiction writer, whose works may be asfely commended. But in the charm of simplicity and naturalness, and in power, he ranks far, far above the common rabble of novit writers, and if we may make such a conclusion from the novit writers, and if we may make such a conclusion from the novit writers, and if we may make such a conclusion from the novit writers, and if we may make such a conclusion from the novit writers, and if we may make such a conclusion from the novit writers, and if we may make such a conclusion from the novit writers, and its which we have read, he has not published one line which dying he would wish to bled." In N. I independent.

"We think this will be pronounced by many the best of Roe's works. The etyle is pleasing, the narrative interesting, while there is a go d, religions, moral tone running through the book."

"There is good moral and religious influence in the work which commends it to our esteem." [N. Y. Com. Advertiser.

"In the freshness and charo of his pages, he is almost "alone on a wide, wide sea" of fiberature." [Bookon kwe, Transcript.

"The author of this work has attained areat popularity among the lovers of light reading, and this charming take will be welcomed with delight. He brings to the eye such sceness of appiness, derived from the right prompiles, that had indeed must be the heart, that is not touched by his beautiful thoughts."

"There is an indisputable charm about this author's productions—the charm of emple truthfulness—wunch invariably scenes the multitude."

"It is marked by the same calm and centle insight into nature, and human nature, that has marked Mr. Roc's previous volumes, and it carries here an admirable religious, as well as a moral lesson."

"The volume contains some to other of nature that are exquisite, and passages that cannot be read with a coid eye, for they are of that sort—angelically few in modern works of fiction—that make the whole world fit." [Chicago Daily Journal.

"We think the book needdy a good one in its moral tone. Certainly at is attractive, and commands the despect interest of the reader."

OPISIOSS OF THE PRESS.

From The Churchman.

"Mr. Minturn's volume is very different from an ordinary shetch of travel over a well beaten road. He writes with sin
quisir condensation. His power of observation is of that in
tuitive strength which catches at a giance the salient and dis
nuchtrosively, so much of the history of India, and yet without

ver suffering it to clog the narrative.

From The Baston Journal.

"This book abows how much can be accomplished by a wide
aweke, thoughtful man in a six months' tour.

"The literary execution of Mr. Minturn's book is of a high

order, and, allogether, we causider it a timely and important

contribution to our stock of meritarious works."

"The book before us, beside presenting a most agreeable nar
rarive of his journeying to Rio. Australia, Northern and South

ern China, &c., adrods a remarkably clear and succeiner account

of India—a country which recent events have invested with

profound interest throughout the revilland world; and certainly

has removed many misgivings which we had innovingally enter
tame' on the subject of the Britian rule there."

"Mr. Minturn, to only traveling rayidly, made good use of his

yea and nis ears, taking care to commit what he saw and heard

in a taminar, compact and readable from to paper."

"From The Chachmat Inquirer.

"We can safely say that no work has been issued which con
veys more information about India and Australia than this; that
it is ontoughly will written; and that, both on account of its

natter and servenbe narrative, it is destined to have a great

popularity. It is one of the best hits of the book aeason."
